

Dear FCC:

I definitely benefit from listening to XM Satellite Radio and its traffic and weather channels. At a fair subscription price each month, I receive in return a great variety of music and talk at crystal clear signals without commercials, as well as traffic and weather information no matter what time I switch to the traffice and weather channel.

In the name of quality programming and free enterprise, please reject the NAB's petition 04-160 which would limit or stop services provided by XM Satellite Radio.

Sincerely,
Stewart Grounds
